ABOUT THE BATHROOM SCENE

I truly believe he got lost in the grind code of this scene.Which would explain the walkthrough so poorly done.

If you don't know how to enable Console Command, read below. For you who knows, just type in the console: mom_bath_pek += 1

To active the console command go to the Game folder > renpy > common > 00console.rpy *open with notepad* and change > config.console = False < to > config.console = True

12+ you'll see this:

THE HOOKER

She shows up every thursday evening in front of your work.Talk to her about everything. You'll need to found a place to fuck.
Noon in front your work, pass time till you see Greg. He'll give you his car keys. Next thursday evening talk to her and choose whatever you want. Every thursday you can fuck her now, but you'll have to pay.

FINAL NOTES

I also saw some scenes in the image folder and I didn't find them in the scripts. I believe he left them for the next update.
